Welcome Message

Dear Friends and Colleagues,

We are pleased to welcome you to the 3rd Asia-Pacific Regional Conference of the International Fiscal Association (IFA) being held on 28th and 29th April, 2017 at ITC Maurya, New Delhi.

New Delhi is the political capital of India and a modern city with vast open spaces and tree lined boulevards. The city of Delhi has a long history and what we see today is its eighth avatar. Delhi has been invaded and ruled by various dynasties from time to time and the monuments built still survive, with some of them like, Humayun's Tomb, Red Fort, Qutub Minar, being in good shape.

The Asia-Pacific Regional Conference will provide a forum for representatives from private and public sectors, including Government officials, academicians, tax practitioners and judges to gather together and share their views on a wide array of subjects relating to international taxation and transfer pricing.

The main topics of discussion at the Conference are – “The implementation of BEPS; Perspectives of capital exporting and importing countries” and “Anti Avoidance and Transparency”. The highlight of the Conference would be a panel discussion amongst Senior Revenue officers of the Asia-Pacific countries. A galaxy of speakers known for their erudition and scholarship from various parts of the world would be addressing the aforesaid topical issues. We hope the participants would find the program of interest and enriching.

Participants as well as accompanying persons will also have the opportunity to enjoy a wide variety of tours in New Delhi and shop for textiles and handicrafts. We also hope that you will have a chance to take some time off before and/or after the Conference and enjoy some of the tours to the city of Agra (famous for the Taj Mahal) and Jaipur.

Once again, it is our pleasure and honour to welcome you all in New Delhi. We sincerely hope you will enjoy your stay in India and take back pleasant memories.

About IFA

The International Fiscal Association (IFA) is a leading non-Governmental international organization dealing with tax and fiscal matters since its establishment in 1938. IFA is headquartered in the Netherlands and has over 12,500 members worldwide, from 116 countries, with 70 National Branches. IFA is engaged in the study of international laws and policy through scientific research, holding of annual Congress, publication of its Cahiers and other materials and co-operation with other like-minded organizations. IFA Congresses are attended by judges of the Supreme Court of different countries, senior Government officials, jurists, academicians, tax professionals, etc. The recommendations of IFA Congress are respected by Governments the world over. The membership of IFA comprises of persons of eminence in the fields, inter alia, of accountancy, law, international taxation, and economics.

About IFA-India Branch

The India branch of IFA, established in 1983, with its membership nearing 550, is the fifth largest branch of IFA-Netherlands, after Germany, Switzerland, USA and Canada – in that order. The IFA-India branch includes as its members the Central Board of Direct Taxes, the National Institute of Public Finance and Policy, the Authority for Advance Rulings and the Reserve Bank of India. Representatives from public and private sector undertakings and eminent tax professionals and executives are also part of IFA-India branch. IFA-India has also established IFA-India Academy with the objective, among others, to promote and conduct research in matters pertaining to international aspects of tax and economic & fiscal policies in various countries. IFA-India Academy also conducts on regular basis seminars and conferences on subjects relating to international taxation and transfer pricing, which are attended by tax and accounting professionals, tax executives and administrators. IFA-India Academy has its own four-storeyed building, which has among others, an auditorium and meeting/seminar rooms with all interactive/presentation facilities.

IFA-India has had the privilege of hosting two highly successful IFA Congress – one in New Delhi (1997) and another in Mumbai (2014) which were well attended and highly acclaimed for the technical content and warm Indian hospitality.

Conference Themes

There has been a growing concern the world over regarding artificial profit shifting by multinational companies, which led to BEPS Action Report issued by OECD containing package of measures for a comprehensive, coherent and co-ordinated reform of the international tax rules. There is increased emphasis on sharing of information between Governments and many countries including India have signed FATCA with the US. More and more countries are now moving towards the direction of automatic exchange of information. Further, General Anti Avoidance Rules have been implemented by various countries across the globe. To curb treaty shopping/abuse India has successfully renegotiated its tax treaties with countries like Mauritius, Cyprus and Singapore.

To discuss the above and several other issues of far reaching importance in the field of international taxation and Transfer Pricing, the International Fiscal Association – India Branch is organizing two days Asia-Pacific Regional Tax Conference on April 28 & 29, at Hotel ITC Maurya New Delhi.

This two-day Conference has been designed in a way to discuss three subjects in detail namely **BEPS Implementation, Transparency and Exchange Of Information** and **Hot Topics in the Asia Pacific Region**. Eminent Speakers from across the region including from OECD as well as from USA and Europe will be faculties. One of the highlights of this Conference will be the round table discussion of the revenue officers of the Asia Pacific Region.

Sightseeing & Tours

Built on the banks of the Yamuna River, Delhi has played a pivotal part in Indian history as it has always been a gateway city on the route between western and central Asia and Southeast Asia. It is also believed to be the site of the fabled city of Indraprastha, which featured in the Mahabharata over 3000 years ago.

Modern Delhi is a chaotic tapestry of medieval fortifications, Mughal mausoleums, dusty bazaars, colonial-era town planning, and mega malls, along with a gleaming efficient Metro Rail system.

To give you vignettes of this bustling capital of India, we have arranged two local sightseeing programmes, as mentioned in the table below.
