

Dear Sir/Madam,

Greetings from International Fiscal Association, India Branch, Northern Region Chapter.

If you ever wondered there could be an institution that could lend you a forum to meet with the likeminded professionals in a sober and intellectually stimulating environment. If you wish to be part of a study group and learning initiative where participants would include tax professionals from practice and industry, officers from tax administration, officers from tax policy and also members of Tribunal. If you think that learning is a continuous process and there should be a forum which you cannot resist to go to when a learning session is announced. If you support the idea of study meetings with "direct to business" approach instead of spending your precious time on long introductions and felicitation kind of things. If your need is to understand the tax and other regulatory laws in India from the perspective of different stakeholders, but with reference to the international developments. If you are good with this forum not lobbying with authorities for serving certain group's interest. Here is the announcement.

Commencing January 2018, International Fiscal Association - India Branch*, invites membership enrolments from the interested tax professionals. The membership of International Fiscal Association (IFA) which is to be renewed every year, would entitle the members to attend the fortnightly/monthly study circle meetings which will be held at IFA-India Academy, C-56/9A, Sector-62, Noida. The Academy at Noida has well equipped classrooms of different size capacities; it has a huge capacity auditorium and other necessary facilities. IFA members are entitled to access internationally acclaimed and sought after "Cahiers". These Cahiers are published each year on the two chosen subjects for the Annual IFA Congress. These give a good perspective on those subjects from each of the member countries as authored by the nominated Branch Reporters. Members are entitled to attend various paid conferences, seminars, workshops, at special concessional fee.

The forthcoming programs of IFA Study Circle, for the first quarter, are as under-

- 6th Jan 2018: Benami Law
- 3rd Feb 2018: Finance Bill 2018
- 17th Feb 2018: Interpretation of Fiscal Statutes
- 10th Mar 2018: Prosecution and Compounding and the Income Tax Law
- 17th Mar 2018: Mergers and acquisitions

If interested, please contact C. B. Sagar on 0120-4281045, 9599937208 or on email accounts@ifaindiaacademy.in for membership and registration. Young members (not above 30 years) enjoy special concessional membership fee.

The membership form is enclosed for ready reference. You can either go for individual membership or for corporate membership. The corporate membership allows you to nominate two members and you can make changes by informing IFA office in these names.

There is also an option to join these study meetings for the non-members by paying a fee of Rs 600+GST, but with prior registration. The meetings of 6th Jan and 3rd Feb are without any charge.

Best regards,
C. B. Sagar

International Fiscal Association
